

We have streamlined our application process. We will only be accepting applications online. We will no longer be conducting in-person application days, but will be accepting the online apps year-round to be considered for the following class year. This time frame will run January 1- December 31.

We are accepting online applications at:
www.local18training.com/online-applications

****If you are a veteran of the Armed Forces, please bring a copy of your DD214**

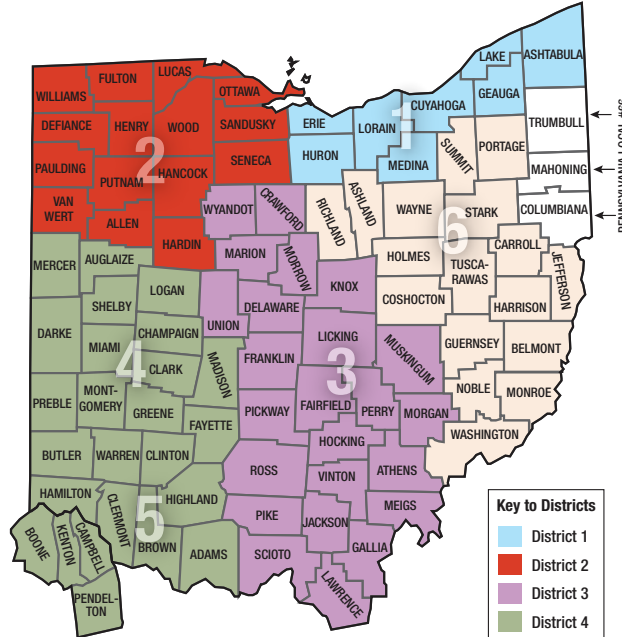

There is no fee associated with our application. Once you successfully submit your application, you will be scheduled for the entrance examination.

There IS a \$25 Testing Fee. On the day of your scheduled exam, please bring with you a photo i.d. and your \$25 cash testing fee, (refunded upon completion of Pre-Admission Orientation).

OPERATING ENGINEERS LOCAL 18

YOUR FUTURE

STARTS HERE

UNION WAGES

GREAT BENEFITS

WE BUILD THE

FUTURE

Who is an Operating Engineer?

Operating Engineers are the people who operate the equipment used to build roads and bridges and assist in the construction of large buildings and other structures. We are also the people who maintain and repair the equipment used for these projects.

Advantages of Becoming an Operator

Working in the exciting field of Heavy Equipment Operation is an excellent choice for MEN and WOMEN who want to acquire and develop multiple skills, to be involved in the building of their communities, and earn an excellent wage including health benefits and retirement while they are working.

Apprenticeship Program

Our Apprenticeship Program is an INDUSTRY SPONSORED and FUNDED, registered Apprenticeship Training Program.

We offer two choices for your career path. Heavy Equipment Operator, and Heavy Equipment Mechanic.

Selection Process

The number of apprentices needed varies from year to year for each of our districts.

The selection process is as follows:

Application
Test
Interview
Pre-Admission Orientation
Indenture

For complete details, please visit our website: www.local18training.com

*The Ohio Operating Engineers Apprenticeship and Training Program will take Affirmative Action to provide equal opportunity in apprenticeship, and will operate its Apprenticeship Program as required under Title 29 of the Code of Federal Regulations, Part 30, and Equal Employment Opportunity Regulations of the State of Ohio.

Qualifications Required to Apply

1. Applicants must be eighteen (18) years old by May 1, of the year that they are applying for entry.
2. Applicants must be able to read and do arithmetic well enough to progress in the classroom training and understand oral and written instructions.
3. Applicants must be eligible to work in the United States.
4. Applicants must be willing to work outdoors in any type of weather and be able to travel to distant work sites if required.
5. Applicants will receive a criminal background check. Any applicant that has been incarcerated, received a felony conviction, or was under community control for a felony conviction within 7 years of applying, will not be eligible to enter the Apprenticeship Program.
6. Applicants will be drug tested during the selection process, at some point prior to indenture, and must show a negative drug screen. Additionally, all indentured applicants shall be subject to random drug testing as outlined in the Apprenticeship Standards and the negotiated Union Contracts.
7. Applicants who do not have a current CDL (Commercial Driver's License) will be required to obtain, at a minimum, a Class B CDL Permit with Air Brakes Endorsement, prior to the beginning of the pre-admission orientation.
